

INTRODUCING FORTE

FORENSIC ENGINEERS
& CONSULTANTS

Specialist services for the insurance claims,
real estate, corporate finance and legal sectors

Forte is a specialist provider of forensic engineering, property damage consulting, property condition assessment and dispute resolution services across the USA, including Alaska, Hawaii and the US Virgin Islands.

We help our clients determine the cause of failure and extent of damage to property and machinery. We provide repair recommendations focused on mitigating business interruption and ensuring compliance with health and safety standards. We enable our real estate and finance clients to make better property investment decisions.

Our clients include Lloyd's of London; some of the world's best known international insurance and US insurance companies; independent loss and claims adjusters; specialist corporate attorneys; and real estate development, investment and finance firms.

They come to us time and again because we meet their objectives and deliver an outstanding service experience.
